

Art and Design – Website Report

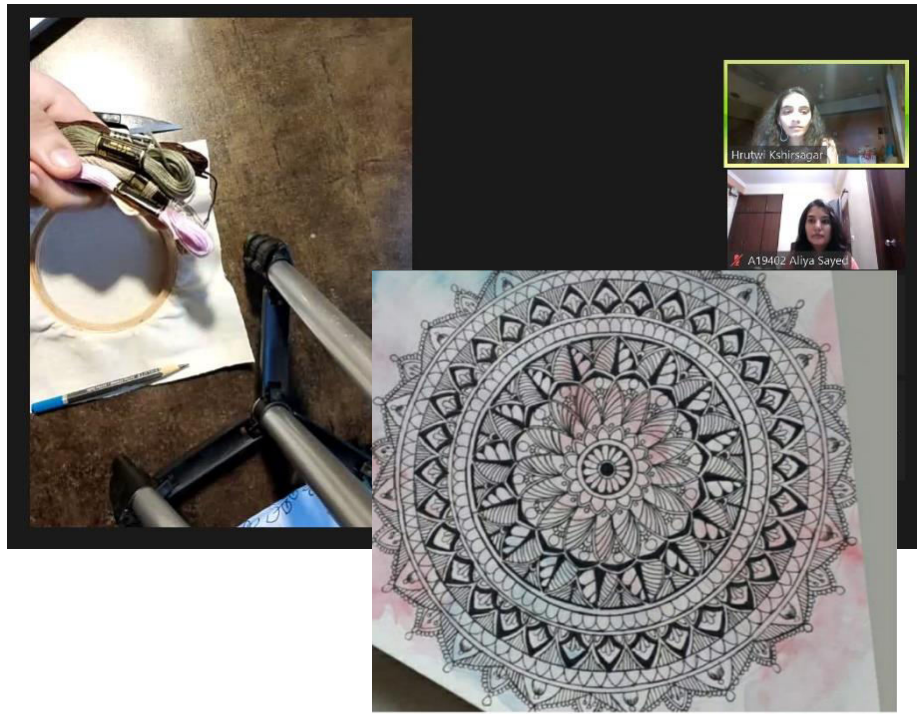

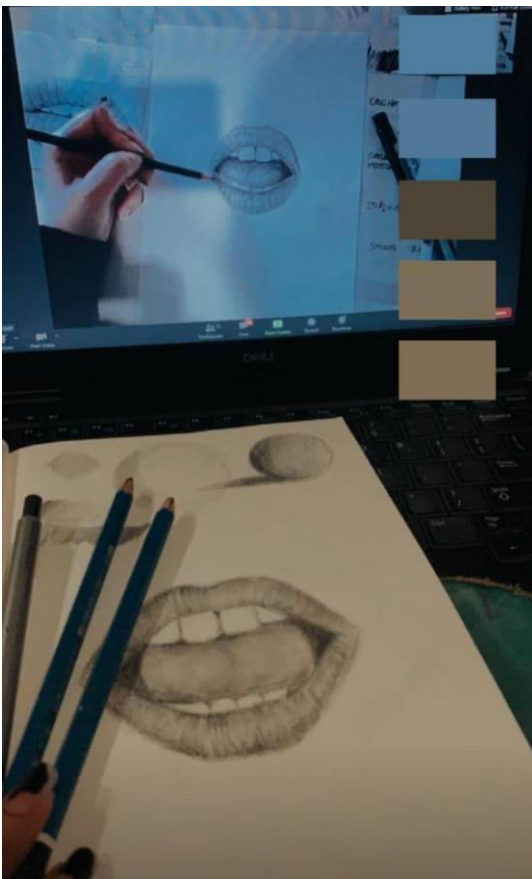

“Art is supposed to disturb the comfortable and disturb the comfortable”

Art and Design club or the A&D club is the club which deals with anything and everything related with art. Our main aim is that we provide a very safe space for our participants so that they can enhance their skills without hesitation. Also, to provide them knowledge and information about things related to art. We also aim to be as interactive as possible, that way the learning is two ways. This year's agenda is, Infusion. We promote all sorts of art forms which ranges from ink pens, paint brushes, charcoal, stylus pens, glue, stitching and everything else. The club also is interested in various art from around the world. The A&D club has contributed a major role decorating the venues for any sort of event in the college. The wall which is outside the college has been filled with colors by the club. Moreover, the club has also organized the annual fundraiser in college. The club has also done collaborations with different clubs for various events.

The club has tried its level best to turn this unfortunate event of quarantine to fortunate by providing them a virtual platform where they can learn something new and show it off. Various workshops and competitions. Our workshops ranged from makeup, origami, fanart, decorating items and competitions like Inktober were held.
