

The Placement Cell of any college is considered by students as a hallowed gateway to the world of work, and that serves as the corner stone of what we as team seek to achieve. The Sophia College Placement Cell is an essential part of the college and has contributed immensely to its repute and development.

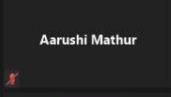

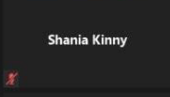

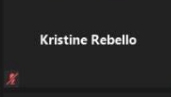

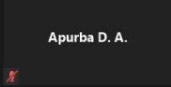

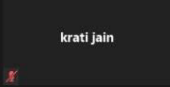

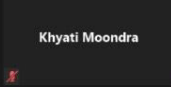

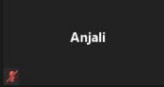

The Placement Cell works towards providing ample opportunities to the students to develop their skills and personality by conducting seminars on a wide variety of topics and workshops. There have been various internship opportunities for the students from a host of companies including Mullen Lowe Lintas Group, Mzaalo, Savage & Palmer, and many more. The students were also provided with placement opportunities from well-known companies like The Bank of America, J.P. Morgan & Chase, Viacom18, Byju's and many more. The Cell works actively towards the holistic development of students every year and aims to achieve much greater heights in the future.

As an initiative on behalf of the Placement Cell, we have launched the first Sophia Consult Club in the year 2020-21.

The Sophia Consult Club aims to develop and inculcate critical thinking skills and empower our students to take complex challenges. We provide a platform for students interested in undertaking business and case consulting competitions and build a student community well versed in today's business, economic, social, and political stratum/fields. We actively work along with the Prism Business Contingent to introduce similar opportunities to our student body.
