

World Music & Dance Club

WMDC is the World Music and Dance Club at Sophia College. We do all things Music and Dance at college, now even virtually. Our foundation lies in celebrating the beauty of Music and Dance, universally and individually and the power of these art forms to bind us all in a common thread. The theme for this year is 'Unleash your Rhythm' wherein we aspire to create an equal platform for everybody and provide them a non - competitive and safe space to practice and showcase their art.

The biggest challenge for this year has been to get people to come onto their screens, even after long days of classes and make them sing and dance and retain a similar atmosphere like that of yesteryears. The pandemic has made us realize the importance of music & dance and it's binding force, hence, with the ever-growing tension and stress, this year, we've tried to make sure that we deliver quality to our fellow Music & Dance enthusiasts.

This year has truly been a year of experiments. The club has reached greater heights than ever before and we've ventured into different social media platforms like never before. We've also been able to collaborate with some exceptionally talented artists and audiences from all over the country and world. Moreover, despite all its shortcomings, we have tried to use the virtual space to the best of our abilities and have tried to turn this lack of physically being on campus to our advantage.

Here are some snippets of our work through the years.
