Preamble:

History is the study of a part of the past. This study gives society a connection to its past and a sense of belonging. This knowledge also enables people to better understand how perceptions, ideologies and beliefs inform the decision-making process at all levels. This in turn may enable society to be sensitive and humane, while promoting reforms, drafting policies and seeking change.

The objective of the B.A. History degree course is to educate the learner about key events that have taken

place in India and globally. The learning includes understanding not just the event, but the context in which it occurred and how it impacted society. To achieve this objective, the Department has designed the syllabi keeping in mind the diverse backgrounds of the students and need to bring them to the same level. The content of the syllabi covers international, national, regional and local history.

The knowledge gained through lectures is substantiated and enriched through the use of maps, videos, field trips, articles, assignments, class discussions and student presentations. Additional resources are posted in the Google Classroom and our social media pages.

The learner will be able to prepare for competitive tests; pursue higher studies in History and allied disciplines; and have acquired basic skills and training in research. The study of History will enable the learner to take up careers for which the knowledge and skills provided by this discipline will be crucial to achieving success.

PROGRAMME OBJECTIVES

PO 1	Develop an understanding of the major events in the history of India, at a national, regional and local level, as well as a global level from the past to the end of the 20 th century
